<p>Mathematics Learning</p> <p>F1 and F2</p>	<p>Follow the links to White Rose Maths videos and activities.</p> <p>There are 5 lessons here to follow. There is a video and learning activity (plus the answers) on the White Rose Website – this is what we use for mastery maths in school.</p> <p>Early Years</p> <p><a href="https://whiterosemaths.com/homelearning/early-years/">https://whiterosemaths.com/homelearning/early-years/</a>      Week 1</p> <p>Can you accurately count collections of objects around the house? When you tidy up your toys count each one as you put it away. Counting with one to one correspondence means moving, touching or crossing off each object or picture as you move it and say the number name in order. It means your child will not keep on counting as they are just touching 1 item. What number can you accurately count objects up to? Record what you do (up to 7 minutes) and upload it for us to see.</p> <p>Watch Numberblocks each day on CBeebies or youtube. This is an excellent programme created with leading maths expert Debbie Morgan. Have a go at some of the challenges and games online too.</p> <p><a href="https://www.bbc.co.uk/cbeebies/shows/numberblocks">https://www.bbc.co.uk/cbeebies/shows/numberblocks</a></p> <p>This week please ONLY look at episode 1 and 2 from series 1: the number 1 and then 1 more.</p> <p>This may seem a bit ‘basic’ but it helps children to fully understand the number, what that number means and how it can be represented in different ways. Compare objects around the house – “there is one and there is lots” and “there is one and there is one more – two”.</p>
